Navigation

BENEFITS

The multimedia course is offered on an infoWERK platform, which provides a number of valuable advantages.

The students enrolled in the course can freely navigate through the courseware, go through the chapters, actively interact and check their own learning progress in a test.

Furthermore, they are able to communicate with their e-tutors by sending messages or by using the Question & Answer tool.

The e-tutors are able to edit the course structure and add contents, create course reports and track student's learning progress, and they can easily maintain contact with their students.

The clear and transparent course administration provides a motivating coaching and learning atmosphere.
